OBJECTIVE

Third-year B.Sc AI & ML student with 2 years of experience as a Graphic Designer and hands-on internship experience in Python, machine learning, and data analytics. Seeking an AI/ML role to apply skills in model building, data analysis, and visualization on real-world projects.

SKILLS

Technical Skills: Python, SQL, Machine Learning, Data Analytics, Data Visualization, Excel, Power BI, Jupyter Notebook, GitHub, VS Code, Google AI Studio, API Integration, Graphic Design

Soft Skills: Leadership, Teamwork, Communication, Problem Solving

PROJECTS

Tourist Behaviour and Travel Analysis *2026*

- Analyzed tourist behaviour and travel patterns using Python (Pandas, NumPy, Matplotlib, Seaborn) in Jupyter Notebook.
- Performed data cleaning, exploratory data analysis, and visualization to identify key travel trends and preferences.
- Presented insights through charts and summary statistics to support data-driven travel recommendations.

House Price Prediction using Linear Regression *2026*

- Built a house price prediction model using Python, Pandas, NumPy, and Scikit-learn.
- Applied linear regression techniques to train and evaluate the model on housing data.

WORK EXPERIENCE

Graphic Designer | CRITIC Tech Solutions *2 Years*

- Designed social media creatives, banners, posters, and branding materials for clients and internal projects.
- Collaborated with team members to deliver designs aligned with project requirements and deadlines.
- Maintained consistent brand identity, layout, and typography across all design deliverables.

INTERNSHIP EXPERIENCE

Python for Data Science & AI Intern | Inspire Softech Solutions *Aug 2026*

- Worked on Python programming fundamentals, data handling, and data visualization techniques for data science applications.

Software Development Intern | TalentBrainy *May 2026 - Jun 2026*

- Worked on application development and programming concepts using Python.

Machine Learning Intern | NoviTech R&D Private Limited *Apr 2026 - May 2026*

- Worked on machine learning models, data preprocessing, and predictive analytics using Python.

Python Programming Intern | Top Tech Developer *May 2025 - Jun 2025*

- Built Python-based applications using APIs and libraries.

EDUCATION

B.Sc Artificial Intelligence & Machine Learning *2024 - Present*

CGPA: 8.70

Higher Secondary Education (Class XII) *2024*

Percentage: 72%

CERTIFICATIONS

- Python Programming - Microsoft (Skill India Digital Hub)
- Data Analyst - Big 4 Ready, OneRoadmap
- Build & Deploy Apps with Google AI Studio - GUVI
- Yuva AI For All - GUVI

POSITIONS OF RESPONSIBILITY

- Editing Coordinator - Talent ARC Club
- Debugging Coordinator - AIRA 2K26 Symposium
